

## SM7704/8.0

### PACKAGING OPTIONS AVAILABLE

**Description:** Clear Plastic LDPE Tube, Wide Mouth Cap, Flip-up Top

**Size:** 8.0 oz.      **Standard Pack:** 48 tubes per case

### PRODUCT DESCRIPTION

**Catalog Number:** SM7704/8.0

Silchem's 7704 dielectric silicone compound is equivalent to those products offered by other manufacturers of dielectric silicone compounds.

### FEATURES & BENEFITS OF SILICONE COMPOUNDS

<b>Feature</b>	Water repellent and hydrolytically stable	Non-corrosive, chemically inert, odorless and colorless	Excellent dielectric properties	Excellent coating
<b>Benefit</b>	Protects operating efficiency of electrical components	Compatibility with a wide variety of materials	Low dissipation factor in electrical environments	Adheres when fluids would drip or spin off

### PRODUCT APPLICATIONS

<b>Electric Utilities</b>	Seal & protect electrical connectors, corrosion protection in meters & metering equipment, seal underground distribution services, splicing and cable accessory products, high voltage insulator coating
<b>Telecom</b>	Seal coaxial connectors & connections, underground services & enclosures, splice coating, protect battery terminals
<b>Automotive</b>	Seal vacuum interfaces, ignition systems, protect battery terminals
<b>Commercial</b>	Moisture seal electric connectors & lighting sockets in commercial refrigeration units.
<b>Marine</b>	Moisture proof connections & fittings, lighting equipment seal, hoses & fittings
