

SM7704/Mini-tube

PACKAGING OPTIONS AVAILABLE

Description: Molded Mini-Tube, clear Saran

Standard Sizes (Net weight): 1/2 gram 1.0 gram 1.5 gram 2.0 gram
3.0 gram 5.0 gram 7.0 gram 14.0 gram

(For special packaging, contact Silchem via the website at www.silchem.com)

PRODUCT DESCRIPTION

Catalog Number: SM7704/"Size" gm/mt (Insert Net Weight for "Size" to complete catalog number)

Silchem 7704 dielectric silicone compound is equivalent to those products offered by other manufacturers of dielectric silicone compounds. Cross-reference data is available at www.silchem.com.

FEATURES & BENEFITS OF SILICONE COMPOUNDS

Feature	Water repellent and hydrolytically stable	Non-corrosive, chemically inert, odorless and colorless	Excellent dielectric properties	Excellent coating
Benefit	Protects operating efficiency of electrical components	Compatibility with a wide variety of materials	Low dissipation factor in electrical environments	Adheres when fluids would drip or spin off

PRODUCT APPLICATIONS

Electric Utilities	Seal & protect electrical connectors, corrosion protection in meters & metering equipment, seal underground distribution services, splicing, termination and elbow cable accessory products, high voltage insulator coating
Telecom	Seal coaxial connectors & connections, underground services & enclosures, splice coating, protect battery terminals
Automotive	Seal vacuum interfaces, ignition systems, protect battery terminals
Commercial	Moisture seal electric connectors & lighting sockets in commercial refrigeration units.
Marine	Moisture proof connections & fittings, lighting equipment seal, hoses & fittings
